NOTICES

Helpful Health Information – Norovirus

With seasonal viruses appearing in the United States, Europe and around the world, Royal Caribbean International, working in conjunction with the Centers for Disease Control, has instituted enhanced cleaning procedures onboard all its ships. You will likely see some of these activities during your cruise vacation. Medical experts strongly suggest that travelers pay close attention to washing their hands. The experts tell us that the best way to prevent colds, flu and gastrointestinal illnesses is to simply wash your hands thoroughly with soap and hot water after bathroom breaks and again before eating anything. Your cooperation and assistance is greatly appreciated.

Public Health Advisory:

Consuming raw or undercooked MEATS, POULTRY, seafood, shellfish, or eggs may increase your risk for foodborne illness, especially if you have certain medical conditions.
