

CelebrityLifeSM

The inspiration behind becoming a better 'You'.

Take part in the complimentary presentations about the iPhone®, iPad® and iPod Touch®.

Check your
Celebrity Today
for times and
locations.

Learn new amazing tips and tricks from an Apple Certified Support Professional.

Speak to one of the friendly iLounge staff for more details about these fun and informative activities.

All presentations feature the new iOS 7® for your iPhone® and iPad®.

Celebrity iLounge

Apple Authorized Reseller

Surf the Internet, purchase a MacBook Air®, or learn how to use your iPad®.

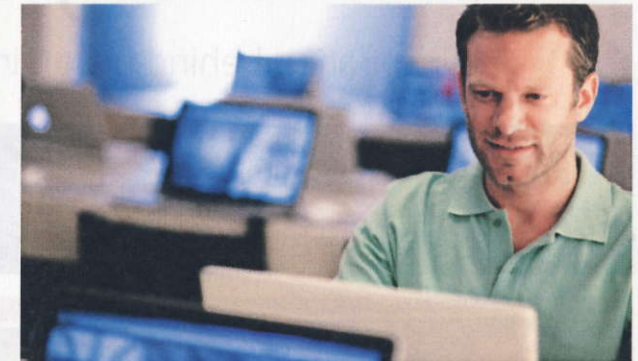

This is Celebrity's chic, new approach to the Internet lounge that's also the first Authorized Apple® Reseller at Sea. It's the modern way to connect while onboard. Here, you'll find state-of-the-art workstations featuring iMacs® or MacBook Pros® where you can take a class, check your email, surf the web or print a boarding pass. Certified staff

will help you master the latest audio and video products. Learn how to get the most from the hippest tech devices, like the iPhone®, iPad®, iPod Touch®, and MacBook Pro®. And, if you like, you can purchase some of these items on your cruise.

Celebrity **X** Cruises®

Get Connected ... Anywhere.

Register an account from anywhere on the ship. Easy.

Step 1: Connect your Wi-Fi device to the "celebrity-wifi" network.

Step 2: Open your **browser** (Safari, Internet Explorer, Firefox or Chrome).

Step 3: On the Login Page, click "**Create Account**" and follow the instructions. You'll need your Folio number (located on your SeaPass® card) and your date of birth to register.

logout.com

Log out the right way. Type in "logout.com".

To stop your session immediately, use the LogOut button or type "**logout.com**" on your Internet browser (Internet Explorer, Safari, Firefox, Chrome). **Don't just turn off your Wi-Fi.**

Need some extra help? For additional assistance or information, please visit the Celebrity iLounge during our staffed hours.

In order to make effective use of bandwidth and to provide you with the best possible Internet speed that our satellite can provide, Remote Desktop, VPN (Virtual Private Networks) and VOIP (Voice-over IP) such as Skype and FaceTime have been disabled.

The Internet is quick for a satellite connection, however, it will never be as fast as a home connection. If you feel that it is too slow at one particular time, please log out and try again later.
