HELPFUL HEALTH INFORMATION

Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person-to-person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. According to the United States Center for Disease Control and Prevention, Noroviruses affect 23 million Americans on land each year. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

WASTE DISPOSAL SYSTEM

Unlike many land resorts, our waste disposal system is sensitive, and operates using a vacuum system. As such, we kindly request that nothing other than toilet paper and human waste is flushed down the toilets. Items such as female hygiene products, hand and bath towels, brown paper towels, food and other items will shut down the system affecting many areas around the ship.
