The Officer's Daily Log

Meet The Captain of Emerald Princess

Captain Tony Draper began his seagoing career with the Royal Fleet Auxiliary Service – the UK's civilian-manned Supply & Logistics division of the Royal Navy.

A keen interest in navigation led Captain Draper to acquire both his Masters Certificate and his UK Commercial Pilot's license in 1994. The following year, he joined Princess Cruises aboard Island Princess, where he first met his wife, Joanna.

Originally from Scotland, Captain Draper now lives in Cornwall in the South West of England, with his wife and young daughter, Alysia.

by Captain Tony Draper

Having sailed this region over a hundred times, I'm convinced it offers some of the most enjoyable locales you'll find anywhere. Like so many of the places Princess Cruises® visits, the Caribbean captivates visitors with an unforgettable combination of natural beauty, fascinating culture and colorful history.

The name of the Caribbean Sea itself comes from the Carib people—the last group to rule the area before the arrival of the Spanish, Portuguese, Dutch, French, Danish and British. Remnants of this colonial history as well as legends of piracy beckon you to go exploring on some of the many shore excursions we have available.

We'll begin this cruise with two relaxing sea days to help you unwind, rejuvenate and discover everything that Emerald Princess has to offer. Once we make landfall on our first Caribbean island, you'll be well-rested and ready to explore!

During this cruise we'll visit Antigua, followed by St. Lucia, Barbados, St. Kitts and St. Thomas. Then, after another tranquil day at sea, we'll conclude our journey in Princess Cays®, our private island oasis in paradise. Speckled with secluded cabanas and a wide variety of optional water sports and activities, our final port is sure to leave you with a sense of satisfaction and solace. As you can see, we have a lot to look forward to!

As Captain of Emerald Princess®, I'm honored to be your host and look forward to seeing you tomorrow night dressed to the nines at the Champagne Waterfall Reception in the Piazza.

From the Navigator

Very early this morning, Emerald Princess will pass Southwest Point (Great Abaco Island) on our port side and shortly after Bridge Point (Eleuthera Island) on our starboard side and set southeasterly course through the Nares Abyssal Plain (North American Basin). Midday we will pass 20 miles from San Salvador Island on our starboard side. Throughout the day we will maintain southeasterly course towards Saint John's (Antigua).

Public Health Reminder

To help maintain a healthy environment, please wash your hands frequently and thoroughly with soap for at least 20 seconds, and rinse them well. We strongly recommend that you follow this procedure each time you use the restroom, after coughing or sneezing and before eating, drinking or smoking. Avoid touching your mouth. We also encourage you to use your private toilet facilities and not the public toilet unless absolutely necessary.

Cruise Card Demagnetization

To avoid demagnetization, please keep your cruise card away from magnetic fields such as your camera, mobile device, etc.

Water and Energy Conservation

A growing number of our environmentally conscious passengers are choosing to conserve water and energy by refraining from unnecessarily leaving water running in their stateroom as well as refraining from leaving balcony and ship's side doors open. Join them and help Princess Cruises protect our environment. Thank you for your assistance.

Romantic Quote of the Day

"Love is a promise, love is a souvenir, once given never forgotten, never let it disappear."
– Henry David Thoreau
