

CUNARD'S THREE QUEENS DIAMOND JUBILEE CELEBRATION

5 JUNE 2012 • SOUTHAMPTON

Cunard Line will celebrate Her Majesty's Diamond Jubilee with a unique Three Queens event on Tuesday 5 June 2012, the final day of the extended bank holiday. During the evening, the three ships of the Cunard fleet will be positioned in a Three Bow formation, and will set sail together in single file from their home port of Southampton for the first time, after what looks set to be a day of spectacular celebration. Queen Mary 2 will be at Ocean Terminal, Queen Victoria at Mayflower Terminal and Queen Elizabeth at City Terminal.

1. Red Arrows Aerial Display: 6.20pm-6.45pm

The Red Arrows will perform a full display over Southampton for the very first time, flying in a seven aircraft formation over the length of the dock area, with the focus over Marchwood Pier.

2. Firework Spectacular: 10.20pm-10.35pm approx

Between 9pm and 10.15pm, the ships will reposition, creating a three ship formation around City Terminal. A stunning firework display fired from opposite City Terminal will light up the sky above the three ships as the climax to a very special day.

3. Three Ships Departure: 11pm approx

The three ships are expected to have set sail by 11pm, with Queen Mary 2 leading Queen Victoria towards Southampton Water, followed by Queen Elizabeth as the day draws to a close.

Vantage Points for the Red Arrows and Fireworks

The aft areas of the top decks will offer the best viewpoints for the highlight events, with live commentary for the Red Arrows and the soundtrack to a spectacular firework display relayed direct to the ship to complete the show.
