# DAILY PROGRAMME

THE MOST FAMOUS OCEAN LINERS IN THE WORLD SM

SATURDAY, 26TH SEPTEMBER 2009

IN THE PORT OF NEW YORK

TONIGHT'S DRESS CODE: ELEGANT CASUAL

QUEEN VICTORIA

AUTUMN COLOURS

VOYAGE NUMBER QV916

Staff Captain: Hamish Sunter | Chief Engineer: William Robinson | **Master: Captain Ian McNaught** | Hotel Manager: Jacqui Hodgson | Entertainment Director: Alastair Greener

## FROM THE NAVIGATOR

### NAVIGATION INFORMATION

Lying quietly alongside our berth throughout the night, we wake this morning to our second day in New York City. Sharing these Manhattan berths with such prestigious past liners such as Queen Mary and Queen Elizabeth, and more recently QE2 and Queen Mary 2. Sailing this evening promises one of the most spectacular departures on offer – suitably enjoyed on deck with a chilled glass of champagne!

### SUNRISE AND SUNSET

GMT -4. Sunrise: 6.47am / Sunset: 6.46pm

### TODAY'S WEATHER IN PORT

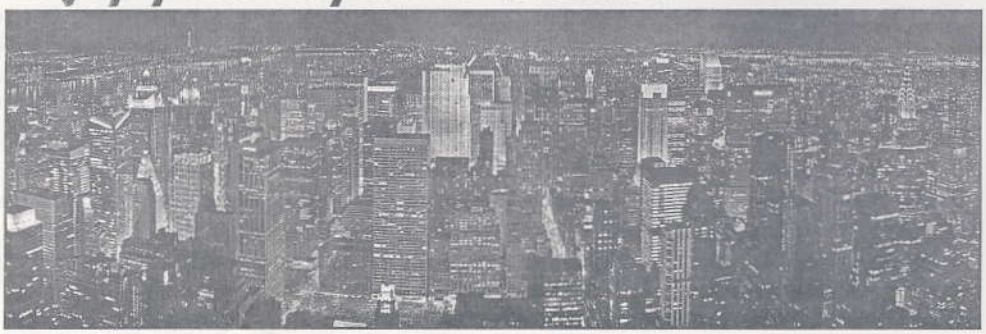
Air Temperature: High 18°C (64°F), Low 14°C (57°F), Sunny Skies.

### NAUTICAL FACT OF THE DAY

**HOW LONG IS A FATHOM?**

A fathom is the unit of measurement traditionally used when referring to the depth of the sea or, in some cases, the length of ropes and cables. The word comes from the old English faedm, meaning to embrace, and is a measurement across the outstretched arms of a man, approximately six feet in a man of average size; the length of a nautical fathom is therefore six feet, roughly 2 metres. The term is used less and less frequently with the growing tendency for most countries today to adopt the metric system measurement as the datum shown on the nautical charts they produce.

## Enjoy your day in New York!



New York was founded as a commercial trading post by the Dutch in 1624. The settlement was called New Amsterdam until the colony came under English control. New York served as the capital of the United States from 1785 until 1790, and has been the country's largest city since 1790. Many neighborhoods and landmarks in the city have become world-famous. The Statue of Liberty greeted millions of immigrants as they came to America in the late 19th and early 20th centuries. Wall Street, in Lower Manhattan, has been a dominant global financial center since World War II and is home to the New York Stock Exchange. The city has been home to several of the tallest buildings in the world, including the Empire State Building and the twin towers of the former World Trade Center. It is the birthplace of many cultural movements, including the Harlem Renaissance in literature and visual art, abstract expressionism (also known as the New York School) in painting, and hip hop, punk, salsa, disco and Tin Pan Alley in music. It is the home of Broadway theater. New York is notable among American cities for its high use of mass transit, most of which runs 24 hours per day, and for the overall density and diversity of its population. In 2005, nearly 170 languages were spoken in the city and 36% of its population was born outside the United States. The city is sometimes referred to as "The City that Never Sleeps", while other nicknames include The Capital of the world, Gotham, and the Big Apple.

**Grand Opening!**

**"The Victorian Sweet Shop"**

*Tonight 6.00pm to 11.00pm*

*Be part of this exciting event as we sail away from New York*

*Cunardia, Deck 2*

## Showtime Tonight in the Royal Court Theatre

Featuring

*Welcome on stage, International Singing Star*

**Cheryl Sinclair**

At 8.30pm & 10.30pm

# SHIPBOARD INFORMATION

### FEATURE MOVIE - 'FROST/NIXON'

*At 2.00pm in the Royal Court Theatre.* Starring Frank Langella, Michael Sheen & Kevin Bacon. Directed by Ron Howard. Rated R; 2 hrs 2 minutes; 2008. This film is a dramatic retelling of the post-Watergate television interviews between British talk-show host David Frost and former president Richard Nixon. For three years after being forced from office, Nixon remained silent, but in 1977 he agreed to sit for one all-inclusive interview to confront the questions of his time in office and the Watergate scandal that ended his presidency.

### FILM CREW

Over the next week, Cunard Line will be hosting a broadcast camera crew. When filming in Public Areas, signs providing a "Notice of Filming" will be displayed. Should you not wish to be filmed, please make this known to the Cunard Line representative escorting the camera crew or a member of the ship's staff.

### IMPORTANT DISEMBARKATION INFORMATION

Guests are requested not to proceed directly to the gangway areas until announcements have been made as crowding in the alleyways causes poor ventilation and a rise in temperature and any delays in gangway preparation/clearance by local authorities may add to your discomfort. If you are on tour please report to the Tour Staff in the public lounge at the time indicated in the Daily Programme.

### ALCOHOL SALES

Please be advised that due to US Port & State regulations we are unable to sell alcohol or let anybody under the age of 21 consume alcohol aboard Queen Victoria whilst in US waters. We are sorry for any inconvenience this may cause.

### CUNARD CONNEXIONS

Computer Learning is available in ConneXions Room 1, Grand Lobby, Deck 1. Self-learning is available around the clock and a range of Instructor-led group sessions take place on days at sea. A flyer detailing the sessions on the remaining days at sea, as well as sign-up sheets for those sessions are already available within Room 1.

### BREAKFAST DINING

Due to the anticipated high demand for room service, we strongly recommend that those guests on morning tours partake of breakfast in the restaurants or Lido.

## Officer Profile
## Senior Doctor Martin Carroll

Martin qualified from Bristol in the west of England many moons ago, spending 18 years in the Royal Air Force doing anaesthetics and intensive care, followed by general practice and aviation medicine. He went to the Falkland Islands just after the conflict in '82, spent several years working with British Special Forces, finishing being in charge of evacuating British casualties from front line field hospitals back to Cyprus and then on to UK during the first Gulf War in 1991. When he was coming to leave the RAF he saw an advert which said "QE2 needs doctor, 151 days leave". Thinking that someone had to help drink the champagne and eat the caviar he volunteered, leaving the Air Force on a Friday and joining QE2 on the following Monday on a Norway cruise. That was in 1991. Since then he has been on Cunard's Princess, Countess, and Dynasty as well as Caronia; Seabourn's Pride and Sun along with Oriana, Grand, Coral, Sapphire and Sea Princesses. Most of his time has been spent on QE2 which was his second home; but he was fortunate to be on the start up team of Queen Mary 2, going to the shipyard in St Nazairre for the final 2 months of the build. The maiden voyage was the highlight of his career at sea, but it was overtaken by the final voyage to Dubai of QE2 in Nov 08. Martin met his wife Ann on Cunard Countess, and they live in rural Cambridgeshire with their dogs. His older two children have long left the nest; his younger sons are 11 and 7, both football crazy, energetic and very frequent cruisers. He plays golf whenever he can which is irritatingly infrequently nowadays, but it does mean that he plays on some of the nicest courses around the World. He still enjoys the unpredictability of medicine at sea, as well as socializing with the guests. The motto of the doctor's dinner table is "Stuff the arteries"; relax when you are onboard, your cardiologist is at home and can't see you eating that desert!!

## Some interesting New York facts...

- In the 1660s New York City's "skyline" was dominated by a two-story-high windmill.
- When the Dutch still controlled the region, Wall Street was the city limit and there was actually a wall there.
- New York Yellow Cabs are yellow, because John Hertz, the company's founder, read a study that concluded yellow was the easiest color for the eye to spot.
- The Verrazano-Narrows Bridge is so long, 4,260 feet to be exact, that the towers on either end were built a few inches out of parallel to accommodate for the curvature of the earth.
- The Bayonne Bridge is almost identical to the world-famous Sydney Harbour Bridge, but it is actually two feet longer. Completed a few months beforehand, the Bayonne Bridge was the world's longest steel arch bridge. Rumor has it that the only reason for those two extra feet was to beat the Australians.
- Manhattan's Chinatown is the largest Chinese enclave in the Western Hemisphere.
- The vaults 80 feet beneath the Federal Reserve Bank on Wall Street store more than 25% of the world's gold bullion.

**Barclays Premiership Football**

*From 2.00pm in the Golden Lion Pub*

**STOKE CITY VS. MANCHESTER UNITED**

***Subject to Satellite Feed***
