## Welcome aboard Ruby Princess

Welcome aboard Ruby Princess! We're excited to have you sailing on the newest gem and we invite you to get to know your home away from home over the next wonderful seven days.

You'll want to start in the dazzling Italian-style Piazza, the bustling hub of the ship. Here you'll find a delightful array of "street"

entertainers, as well as tantalizing treats at the International Cafe and Vines wine and seafood bar. There are also boutiques, bars, an art gallery and more.

Don't miss Crown Grill, our new steakhouse with an open kitchen, and stop by the stylish Adagio Bar for a drink, while the heavenly aromas from nearby Sabatini's Italian ristorante tempt you. On deck, there's our peaceful adults-only retreat, The Sanctuary, and at Calypso Pool and Reef, you can watch Hollywood blockbusters day and night on our outdoor big screen, Movies Under the Stars. And there's so much more!

So discover all that Ruby Princess has to offer and enjoy an incredible escape!

### Meet your Captain

With a seafaring name — "yeoman" is a sailor rating — it's as if Captain Tony Yeomans was born to sail. He joined the P&O family as a Cadet in 1967,

obtained his Masters Certificate in 1977, and has commanded eight different Princess ships in addition to being Master of Ruby Princess. When ashore, he can be found at home in his native Derby, England, with his wife, Debbie — whom he met on Pacific Princess in 1991, when she was a Social Hostess — and their children, Natasha and Oliver.

## Did You Know?

### Dolphins Pods

A group of dolphins is called a "pod." They are social and tend to congregate and spend their entire lives with fellow podmates. A pod can contain anywhere from 10 to 30,000 dolphins.

Dolphins can swim at a sustained speed of 20 mph and can reach 25 mph in short burst.

It is believed that dolphins can live as long as 50 years.

### Goby & Whale Sharks

It is estimated that there are 20,000 to 40,000 different species of fish.

The smallest fish is the goby, which is rarely longer than a half inch when it's fully grown.

The largest fish is the whale shark, which can be more than 50 feet long and can weigh about 2 tons.
