Helpful Health Information

Royal Caribbean International, working in conjunction with the United States Centers for Disease Control and Prevention, has instituted enhanced cleaning procedures onboard all its ships. You will likely see some of these activities during your cruise vacation. Medical experts tell us that the best way to prevent colds, flu, and gastrointestinal illnesses is to simply wash your hands thoroughly with soap and hot water after restroom breaks and again before eating anything. Your cooperation and assistance with this matter is appreciated.

For your convenience, complimentary consultations and treatment in our Medical Facility are available for gastrointestinal illnesses.
